DOES MARS INC

MARS

In my life there wasn't any other eventful year than 2019. In Dec of 2018 right after my graduation of Master Program, I totally changed my life and opened up the door to the new world - the world of big business and new city of Vladivostok. So I moved to Far East, where I started my career at MARS Inc., based on the position of Regional Category Customer Marketing expert in Vladivostok.

I really enjoy collaboration with my colleagues – I call them the Martians.

Vladivostok is a wonderful city which is certainly worthy to visit. It contains a lot of places to see. It has the best oceanarium in the Eastern part of the world, two wonderful bridges, fantastic nature, and warm-hearted people.
